

Net double bogey is the maximum hole score under the **World Handicap System™**

What is Net Double Bogey?

Net double bogey is the maximum allowable hole score for handicap purposes.

The procedure is typically applied after the round and before a score is posted. However, when the format of play allows, or when playing a recreational round, you can pick up once you've reached your net double bogey limit.

Net double bogey prevents the occasional bad hole from impacting your Handicap Index® too severely.

How is Net Double Bogey calculated?

Net double bogey =

Double bogey +/- any handicap strokes received on a hole (minus applies to plus-handicap players)

If you post hole-by-hole scores, the net double bogey adjustment should be applied automatically.

Can I see an example?

A player with a Course Handicap™ of 10 can post a maximum hole score of **double bogey +1** on holes allocated 1 through 10 on the scorecard (denoted with red •). The max score on all other holes is double bogey.

The player's score of 8 on the 12th hole would be reduced to a 7 for handicap purposes. This is because their net double bogey maximum was **double bogey +1**, which on a par 4 = 7. The score for the competition is 83, but the score for handicap purposes is 82.

What if my Course Handicap is above 18?

If your Course Handicap is between **19 and 36**:

Triple bogey is your baseline – post up to **triple bogey +1** on holes with stroke index values less than or equal to your **Course Handicap – 18**.

If your Course Handicap is between **37 and 54**:

Quadruple bogey is your baseline – post up to **quadruple bogey +1** on holes with stroke index values less than or equal to your **Course Handicap – 36**.
